50X1-HUM

1. Work on the Szekszárd - Pécsvárad - Pécs road is finished with the exception of the viaducts between Mecseknádasd and Zengővárkony. Although this highway has been opened, it will not be used for long-distance traffic until the viaducts are complete. These viaducts are 180 m. and 140 m. in length respectively. Their carrying capacity was to be tested at the end of June 1953.
2. The Pécs - Harkány and Pécs - Mohács roads are being reinforced, so as to be able to bear the heaviest type of tanks. Provisions are being made for roadside-parking areas.
